Nashville. A mother had a sick son at Nashville, and set out to see him. At Louisville she applied for a military pass to proceed, but vas refused, because of the great number of persons similarly applying, and the unwillingness of the army authorities to allow females to enter the lines. So she came to the Sanitary Rooms and stated her case, and her son's name was found in the books. Said she, "I have seven sons in the army and I do not wish one of them out; but I do want the privilege of seeing them whon they are sick." Said Mr. Holbrook, "It is no part of our work to obtain military passes, but I will see what can be done, as an exception in your case," and he wrote a statement of it to Gen. Boyle, who instanty granted the pass.

The character and principles of the visiors are sometimes curiously brought out. There came in, one day, a man in "butter-nut" clothes, from Indiana, to inquire after a son who had been mortally wounded. He said that as he was opposite one of the elegant residences of Louisville, a gentleman came out, accosted him, and asked him why District, on their way to New York to be used as substitutes there, were taken off the steam ship Baltimore at Georgetown yesterday by his son was mortally wounded, and he was on his way to see him. "Served you right!" replied the brute. "It is what all you nigger-stealing Yankees who send your sons before the war in the same businesse will get before the war is over. You don't know what you are fighting for." "Oh, how angry was," said our butternut friend, "when he called me a nigger-stealing Yankee..... ME; who was born in Virginia, was raised in Kentucky, went to Indiana forty years ago, before it was a State, am related to all the Lees and Jacksons, voted for Breckinridge at the last Presidential election and have helped to return fugitive slaves! I know what we are fighting for --- for our Government and Union. God grant that all the "butternuts" in Indiana and the neighboring States may be converted to the same faith. I will mention another case of noble patriotism manifested in a somewhat similar way, under the sorrows of the war. man had lost two sons in the battle of Shiloh and now he heard that the third and last was sick at Jonesville. He came to the Hospital Directory to learn where he was, and was told that he was in the hospital for erysipelas patients, and he must be pre-pared to find him very low. He went there and found them just burying his boy. He came back shortly after, with tears streaming down his cheeks, and said: "Had I three sons more, and knew that they would all go just as they have, I would give them Has the world ever witnessed sub-

Another father came to Louisville to meet a son who had been discharged from a hospital at Nashville, and to have reached Louisville on that day, according to a letter sent by the surgeon. He could not find his son, as expected, and called at the office of the Directory to inquire about him. The hospital report from Nashville had just come in, and when consulted it told the sad tale that the son had died the very day the the father's grief intense. But in addition he was out of money, having expected that mission at Louisville, from which we make his son would receive his pay at discharge and be in funds for the expenses home The necessary money was procured, all the papers made out requisite to obtain the son's effects from Nashville and the father sent home the same day, feeling that the Sanisoldier and of the soldier's family.

The New Year. The New Year made its advent in no very amiable mood. No sooner was its predecessor dead than the ambitious yourg rascal week ending January 2d, 1864: vanited into his vacant place of power, wav-ing his ley cepter over these mild latitudes, and creating such panic and consternation among all classes as has not been witnessed for years. The cold winds shricked with worse than maniac glee, as old and young were pelted with hall and covered with snow, and went scudding slong the streets to find shelter and fire, and tried to get a little blood into their benumbed fingers, frost-bitten ears, Clingering N toes and noses. On New Year's day winter reigned supreme in this city, the mercury went down to ten degrees below zero, the Carlen I Connel J streets were abandoned and business was suspended. Never were comfortable quarters at a higher premium, and our citizens generally showed their high appreciation of such blessings by remaining in doors. The New Year has furnished the people topics of conversation other than President making, Heenan and King's fight, and the war. The intensely cold weather forces itself into every body's mouth and provekes an opinion-suggests to the charitable that there is suffering at their door, and reminds all whose hearts are not touched with the frest of miserly penurious ness, that now is the time to give to the poor. The New Year we know will grow more genial as it grows older, its frigid fiercenes will soon give way to the genial influences of

WHOOPING COUGH .- The proofs of cures of the most distressing cases of whooping cough, by Dr. Strickland's mellifluous cough balsam, speak louder than words to the merits of this incomparable remedy. A grateful patient writes: "I am happy to bear my testimony to the wonderful powers of the your halam in ouring my children of the your balsam in curing my children of the most distresing whooping cough, after every other means had failed." Can any result be more gratifying? What a load of suffering was removed by the use of this noble cough ough, after every balsam. JUST THE THING FOR A NEW YEAR'S PRES-ENT .- The very best thing for a New Year's present is a Grover & Baker sewing machine Thousands of them have already been converted into as many souvenirs the present season, and the happy recipients of them will have, daily and hourly, ample cause for thanking and thinking of the donors. A merely ornamental present may captivate the eye for a time; but it is only the really useful that, like true friendship, stands the test of time In buying a sewing machine, however for a present or otherwise; to get the best should be the aim of the purchaser, for many machines in the market lead only to Mitter disappointment

and "grashing of teeth." Not so with the incomparable and unapproached Grover & Baker, which, like the good Samaritan that it is quietly performs its great abundance of good amid the smiles and heartfelt thankfulness of the members of the family circle or the workshop. For years it has stood the -changes Red, Rusty or Grey Hair instantly to a severe test of hourly experience, and has lived down hundreds of mushroom sewing machines, and bids, even now, to drive to merited obscurity many others that we wot of, which even the most strenuous puffing and the most stupendous falsehoods can hardly keep afloat. Increased facilities enable the manufacturers to meet the greatly increased demand for the Grover & Baker, but those who design purchasing a sewing machine had better inspect, without delay, the number daily in active operation at the Grover & Ba ker sewing machine company's establishment, No. 5 Masonic Temple. They will there see a machine noiseless in its character, pleasant to operate, easily learned, not liable to get assailants, who fell back, exclaiming "I am out of order, capable of making a seam that ed the officer, cutting him terribly over the left family sewing, one that embroiders splendidly, will never rip, adapted to the entire range of and, in short, the best and the cheapest sewing

The river is falling at Cincinnati, Wheeling and Pittsburg. The reports from Cairo indicate considerable ac tivity in river affairs.

It is believed the present cold snap will close the Wabash river before the immerse amount of grain which is stored at various points awaiting shipment can be got out. The canal is frozen over so as to produce a blockade. There was fine skating on it yesterday, which

the boys were enjoying. The model barge, with fifteen milroad cars which broke loose from the landing on the night of the 31st, in the high wind which then prevailed, s lying easy on the rocks at the head of the canal. She will be got off without damage. The steamer Moss, Captain McPherson, was to

go over the falls last evening and receive the balnce of her freight at Portland. She will leave for New Orleans on Monday evening. The big Gray Eagle did not get away on her reg ular day (Friday) owing to the extreme cold weather and the large amount of freight she had to disharge. She took the p'ace of the Tarascon last

evening. The Tarascon will go out on Tuesday evening. The steamer St. Louis is the Menday's boat for Nashville from Portland. She is advertised to go positively. Captain Rich is an experienced commander, and will take passengers to Nashville and

waylandings in good style. The steamer Arago was sold in Memphis for \$35,-000 cash. The Effie Dean, which sunk some weeks since at

Cairo, is again aflost. Messrs, D. Newcomb & Co., at Cannellton, Ind., and the proprietor of the coal business at Hawesville, have advanced the price of coal to 18 cents Captain Lancaster, of Vincennes, is going into

the Wabash trade extensively. He has purchased the interest of Mr. Isaac Parsons in the steamer Advance, which is to run regularly hereafter between Vincennes and Terre Haute. He has also bought the steamer Patrick Henry, which he designs running between Vincennes and Grayville.

EFFECT OF LIGHT.—A tadpole confined in darkness would never become a frog; and an infant being deprived of Heaven's free light would only grow into a chapeless idiot instead of a beautiful and reasonable being. Hence, in the deep dark gorges and ravines of the Swiss Valais, where the direct sunshine never reaches, the hideous prevalence of idiocy startles the traveler. It is a strange, melancholy idhocy. Many citizens are incapable of any articulate speech; some are deaf, some are blind, some labor under all these privations, and are all mis-shapen in almost every part of the body. I believe there is in all places a marked difference in the healthiness of houses according to their aspect with regard to the sun, and those are decidedly the besithiest, other things being equal, in which all the rooms are, during some part of the day, fally exposed to the direct light. Epidemics EFFECT OF LIGHT.-A tadpole confined in fally exposed to the direct light. Mr. Burt was on his engine at the time. The ball struck his left hand, and, glancing off, penetrated Burt's coat, vest and shirts, and odged in the skin of his right breast. His hand is badly hurt, but otherwise he is not much injured.

Three years ago not a pound of salt was made in Saginaw Valley, Michigan. There has been exported from the Valley the present year not less than 3.000,000 barrels.

[From the Richmond Whig. The Charleston Courier makes a timely suggestion of ommending the attention of our Government to the naturalization and cultivation of Calisaya for the presrvation of the health of our soldiers. This article has a peculiar effect upon the liver, and guards the system against disease by exposure and irregular diet. It i said that the great success of the Plantation Bitters of Dr. Drake, which, previous to our unhappy difficulties. was found in most Southern homes, was owing to the extract of Calisaya Bark, which it contained as one of s principal ingredients, "In confirmation of this, we have heard one of our most distinguished physicians remark, that whenever he felt unwell from ordinary dietetic or atmospheric causes, he invariably relieved himself by Plantation Bitters. Now that these Bitters cannot be obtained, a substitute should be prepared. We understand that our Government has opened nego tiations with Dr. Drake, through a secret agent, but with what truth we do not know." * * * * * * * We are exceedingly obliged to the Richmond Whig for its remembrance of "Auld Lang Syne," but we can assure "Our Government" that the Plantation Bitters are not for sale to any "secret agents," North or South,

There is probably several other things that "Our Gov-ernment" will yet want. We know that we have the best and most We know that we have the pess and poblished in the world. We are not afraid to show what it is composed of.

MISCELLANEOUS. AYER'S CATHARTIC PILLS.

ARE YOU SICK, FEE. should be averted by a class of the right femiliary and results a state of the body into vigorous activity, unity the sistem from the obstructions which make disease. A cold satisfy a somewhet in the body, and obstructs its natural functions. These, if not releved, react upon themselves and the surrounding organs, trodeling general aggravation, suffering and disease. While in this condition, oppressed by the derangements, take Ayer's Filistand see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is trie and so apparent in this trivial and common complaint, is also true in many of the deep seated and dangerous distenpers. The same purgative effect expels them. Caused by similar obstructions and derangements of the natural functions of the body, they are rapidly, and many of them surely, cured by the same means. Nohe who know the virtues of these Pills will neglect to employ them when suffering from the disorders they cure.

Not only are your Pills admirably adapted to their purpose as an aperieor, but I find their beneficial effect apon the Liver very market indeed. Constipation, Cotiveness, Suppression, Rheumatism, Gout, Neuralgia, Dropsy, Paralysis, Fits, etc. From Dr. J. P. Vaughn, Montreal, Can From Dr. J. P. Vaugan, Montreat, Canada.

Too much cannot be said of your Pills for the cure of costiveness. If others of our fraternity have found them as efficacious as I have, they should join me in proclaiming it for the benefit of the multitudes who suffer from that complaint, which, although bad enough in itself, is the progenitor of others that are worse. I believe costiceness to originate in the liver, but your Pills affect that organ and cure the disease. I find one or two large doses of your Pills, taken at the roper time, are excellent promotives of the natural exerction when wholly or partially suppressed, and also ery effectual to cleanse the stomach and expel worms, hey are so much the best physic we have that I recommend no other to my patients.
